

The **NGS/6000 Distribution System** can operate as either a multi-user or stand-alone single user system with terminals and desktop devices such as Personal Computers. Users can select the type of device that best suits their needs and operation. Agencies that use PC's with off-shelf software can easily transport data into those programs. Windows users can enjoy the benefits of "cut and paste" and a GUI interface with mouse.

NGS/6000 Magazine

Category Management System
