

Let your light shine...

The **BOSS**

Bright beacons displayed atop lofty lighthouses guide ships through vast oceans. Let the BOSS beacon guide your agency to fast accurate invoice fulfilment.

Pick line productivity achieves the highest efficiency with the **BOSS Pick System** from Data Processing Services, Inc. Your pickers will head straight to the bright pick beacon like a ship on course.

38% reduction in labor to pick, 25% reduction in labor to setup, 90% reduction in pick errors and the best *auto-test* features in the industry.

Our Next Generation pick system is compatible with virtually all systems. We currently operate on Computac, MJ, Benjamin, Anderson, Datamann and Data Processing Services systems. The BOSS Pick System pays for itself and builds customer confidence.

Call today for a **free** purchase analysis.
